Reimagine Your Academic Portfolio—Without Draining Your Budget

With Program Remix, you can unlock new program possibilities—faster and smarter. This AI-powered tool helps you design relevant, in-demand degrees by reimagining the courses, faculty expertise, and academic resources you already have in place. There's no need for added budget, complex development cycles, or hiring new staff. Instead, you can quickly respond to evolving student interests and workforce needs—keeping your institution competitive, innovative, and aligned with market demand.

NEW DEGREES, NO EXTRA SPEND

Launch new degrees by repurposing existing courses and faculty expertise. Avoid the time, cost, and hassle of building programs from scratch.

DATA-INFORMED DESIGN

Let AI analyze market trends, student demand, and your current curriculum to pinpoint opportunities for new, competitive programs.

BUILT FOR YOUR RESOURCES

Program Remix works with your institution's unique course catalog, terminology, and academic structure to create programs that fit your existing framework.

STAY COMPETITIVE

Quickly respond to workforce needs and student interests—offering relevant programs that drive enrollment and set your institution apart.
