COCO COURSES

AI THAT KNOWS YOUR COURSE—
BECAUSE IT'S GROUNDED ON IT

CoCo helps students learn and saves professors' time. CoCo Courses is your students' always-on, course-specific tutor, designed to boost academic success, improve retention, and help more learners cross the finish line. Accessible 24/7 on desktop and mobile with support for over 30 languages, this AI tutor is source-grounded on your course materials, offering personalized academic support anytime, anywhere. CoCo's Socratic techniques promote understanding, and CoCo never gives answers. CoCo helps students grasp challenging concepts and succeed in the courses that matter most, all while saving professors' time.

CONVERSATIONAL SUPPORT

Students can ask questions via text or voice and receive real-time, natural-language guidance tailored to their coursework

DEEP CONTENT INTEGRATION

Uploads course content from the LMS and gives answers grounded in the professor's course content

SMART, ADAPTIVE RESPONSES

Delivers help in the student's preferred format and adjusts explanations to match their comprehension level

FACULTY OVERSIGHT & CONTROL

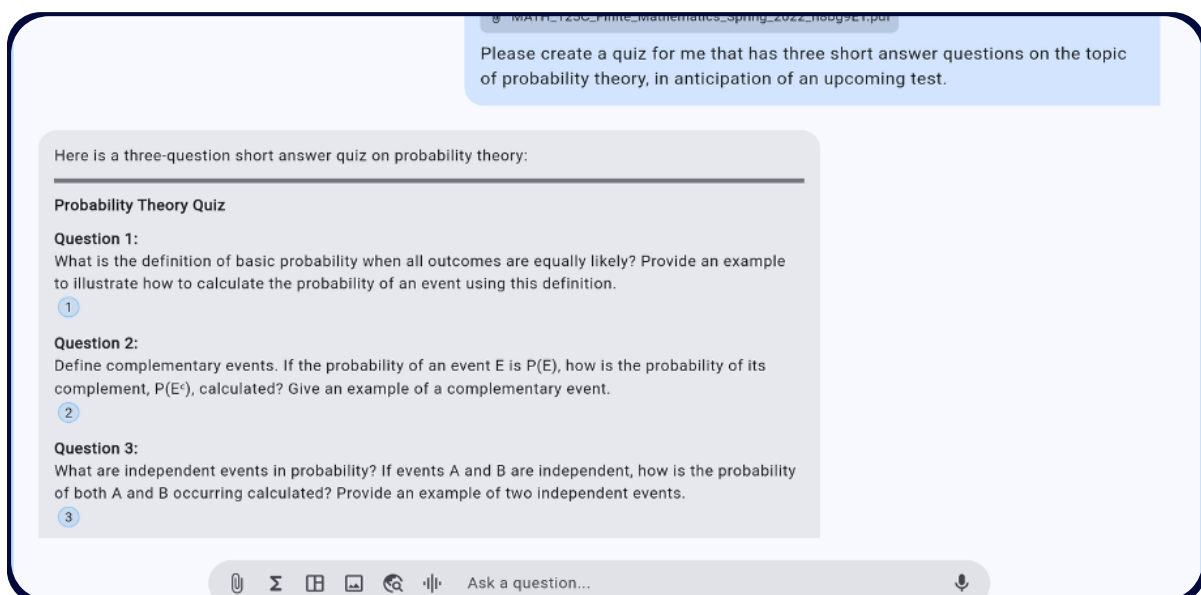

Professors curate source materials, review student interactions, and maintain academic integrity through built-in quality controls via the professor dashboard

ENCOURAGES REAL LEARNING

Promotes critical thinking and understanding through Socratic-style questioning, but does not complete assignments

PROFESSOR'S HELPER

CoCo can draft quizzes, tests, and rubrics – and identify the issues that challenge your students

CoCo Courses: \$20 per student per year | CoCo Courses and CoCo Careers Bundle: \$29 per student per year
